Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicant's representative contacted the examiner regarding the dismissal of the appeal brief regarding rule 37 CFR 41.37(which describes the new requirements for submitting an Appeal Brief). As previously explained by the examiner in section (d) "If appellant does not file an ammended brief which does not overcome all the reasons for non-compliance stated in the notification, the appeal will stand dismissed". However, Appellant argued that the MPEP at section 1205.03 which states that the examiner should not require a corrected brief for minor non-compliance in an appeal brief, where minor non-compliance could be related to the absence of a claim set and that because a claim set could be provided by the examiner so could the decision rendered by the board. After consulting with the examiner's supervisor it was concluded that from a customer service standpoint the Appellant's arguments were persuasive. The examiner's supervisor instructed the examiner to withdraw the dismissal and enter the examiner's answer previously submitted. Therefore, the examiner has withdrawn the previous dismissal of the appeal brief and further provided the examiner's answer in addition to the decision rendered by the board (for case 09/553,012) to supplement the related board decisions appendix.
